Summary

FULL STACK DEVELOPMENT | WEB DEVELOPMENT

Core Competencies

- Python
- HTML/CSS
- PHP
- JavaScript
- MySQL
- Flask
- D3JS
- Bootstrap
- Shell/Bash
- Git/ VS Code

Education

MASTERS IN COMPUTER SCIENCE | ONGOING | UNIVERSITY OF TEXAS AT ARLINGTON

- Major: Databases
- Major: Artificial Intelligence
- Related coursework: Data analysis and modelling techniques, Database Systems 1, Design and Analysis of Algorithms, Advanced databases in Cloud Computing and Web Data Management.

BACHOLOR OF ENGINEERING IN COMPUTER ENGINEERING | AUGUST 2018 | THAKUR COLLEGE OF ENGINEERING AND TECHNOLOGY, MUMBAI UNIVERSITY

- Related coursework: Data Structures, Object Oriented Programming, Analysis of Algorithms, Database Management Systems, Artificial Intelligence, Machine Learning and Soft Computing.

Projects

COURSE RELATED PROJECTS

Web Data Management Project

- Created a Dynamic website for Event Registration and Management.
- Used HTML, CSS, JavaScript, Bootstrap and PHP for the project.

Design and Analysis of Algorithm Project

- Implemented an Algorithm that compared different sorting Algorithms.
- Used Python for the project.

Data Analysis and Modelling Techniques Project

- Implemented an Algorithm which generated different samples given a specified data distribution.
- Distributions being Discrete and Continuous Distributions.
- Used Python for the project.

PROJECTS

Tic Tac Toe Game

· Implemented a simple Tic Tac Toe Game with a GUI.

· Used Python for the logic and Python's Tkinter Library for the GUI aspect of the project.
